

1

Add an interesting line instead of 'Hi I am bla bla.. bla..'

Make it appear through vertical fade-up transition in CSS:

Developer
I am a **Physics Enthusiast**
History Admirer

And show a short small text explaining the main text:

e.g.: I love veritasium and electroboom's videos
I love javascript <3
I casually watch the fall of the Mughal empire!

2

Improve navigation: Just add simple controls to the page

3

Add a contact form with simplest controls

Start with "Let's have a cup of coffee"

- ➔ Email
- ➔ Message
- ➔ Send Button opens up his email

4

Add a small counter: 'developed with ❤️ in react and primefaces' and add a heart counter so people could tap the button.
